

Instructions for Form 3800

General Business Credit

Section references are to the Internal Revenue Code unless otherwise noted.

Future Developments

For the latest information about developments related to Form 3800 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/form3800.

What's New

For tax years beginning after 2015, the research credit of eligible small businesses is allowed against Alternative Minimum Tax (AMT). Also, qualified small businesses may elect to claim a certain amount of the research credit as a payroll tax credit. See the instructions for line 1c and 4i, later.

The enhanced oil recovery credit, completely phased out since 2005, is applicable for tax years beginning in 2016 because of the lower reference price per barrel of crude oil in 2015. See the instructions for line 1zz, later.

General Instructions

TIP *Partnerships and S corporations must always complete the source credit form. All other filers whose only source for a credit listed on Form 3800, Part III, is from a partnership, S corporation, estate, trust, or cooperative can report the credit directly on Form 3800. The following exceptions apply.*

- You are claiming the investment credit (Form 3468) or the biodiesel and renewable diesel fuels credit (Form 8864) in Part III with box A or B checked.
- You are an estate or trust and the source credit must be allocated to beneficiaries. For more details, see the instructions for Form 1041, U.S. Income Tax Return for Estates and Trusts, Schedule K-1, box 13.
- You are a cooperative and the source credit can or must be allocated to patrons. For more details, see the instructions for Form 1120-C, U.S. Income Tax Return for Cooperative Associations, Schedule J, line 5c.

Who Must File

You must file Form 3800 to claim any of the general business credits.

Carryback and Carryforward of Unused Credit

The carryforward may have to be reduced in the event of any recapture event (change in ownership, change in use of property, etc.). If a section 1603 grant is received, the carryforward must be reduced to zero. For further information, see Form 4255, Recapture of Investment Credit.

If you can't use part or all of your general business credit because of the tax liability limit (Part II, line 38, is less than the sum of Part I, line 6, and Part II, lines 25 and 36), carry the unused credit back one year. To carry back an unused credit, file an amended return (Form 1040X, Amended U.S. Individual Income Tax Return, Form 1120X, Amended U.S. Corporation Income Tax Return, or other amended return) for the prior tax year or an application for tentative refund (Form 1045, Application for Tentative Refund, or Form 1139, Corporation Application for Tentative Refund). Generally, if you file an application for a tentative refund, it must be filed by the end of the tax year following the tax year in which the credit arose.

TIP *No part of the unused credit for any year attributable to any credit can be carried back to any tax year before the first tax year for which that credit was first allowable. See [Credit Ordering Rule](#), later, to determine which credits are allowed first.*

If you have an unused credit after carrying it back 1 year, carry it forward to each of the 20 tax years after the year of the credit. Any qualified business credits (as defined in section 196(c)) that are unused after the last tax year of the 20-year carryforward period (or at the time an individual taxpayer dies or other taxpayer, such as a corporation or partnership, ceases to exist) may be taken as a deduction in the earlier of:

- The tax year following the last tax year of the 20-year carryforward period, or
- The tax year in which the individual taxpayer dies or other taxpayer ceases to exist.

Figuring the carryforward if a payroll tax credit election is made. Qualified small businesses electing to claim a portion of the research credit as a payroll tax credit must adjust the research credit

carryforward for the amount of the credit elected as a payroll tax credit on Form 6765.

The unused credit for the current year is determined by reducing the amount on Part I, line 6 and Part II, line 36 by the amount on Form 6765, line 44. If you have amounts on both Part I, line 6 and Part II, line 36, the reduction is made proportionately. No amount elected as a payroll tax credit can be used to offset the current year tax liability nor can it be included in the carryforward or carryback calculation.

Carryforward of the energy credit and the renewable electricity credit. The energy credit must be recaptured in full if a grant is paid under Public Law 111-5, section 1603, for investment in energy property that an energy credit was previously claimed or for investment in renewable energy property that an election was made to treat the property as energy property. Recapture is applicable to those amounts previously constituting the qualified basis for an energy credit, including progress expenditures, that are also the basis for the 1603 grant. Recapture is accomplished as follows.

1. Any portion of the energy credit related to that property that was used to offset tax in a prior tax year must be added to tax in the tax year the 1603 grant is received. Recaptured tax is calculated on Form 4255.
2. Any carryforward of the energy credit related to that property is reduced to zero to recapture the unused portion of the credit.

See Form 4255 for any other recapture event (change in ownership or change in use of property, etc.).

Carryforward of certain Form 6478 credits. The alcohol mixture credit, the alcohol credit, and the small ethanol producer credit expired for fuels sold or used after 2011. The unused alcohol mixture credits, alcohol credits, and small ethanol producer credits (for all tax years) can't be carried to a tax year beginning after 2014.

Change in Filing or Marital Status

Your general business credit is limited to your tax liability. Therefore, if you filed a joint return in a carryback or carryforward year and your marital status or filing status has changed, you may need to figure your

separate tax liability in that carryback or carryforward year. This would apply if:

- You filed as single in the credit year, but filed a joint return in the carryback or carryforward year;
- You filed a joint return in the credit year, but filed a joint return with a different spouse in the carryback or carryforward year; or
- You were married and filed a separate return in the credit year, but filed a joint return with the same or a different spouse in the carryback or carryforward year.

Determine your separate tax liability in the carryback or carryforward year as follows.

1. Figure your tax for the carryback or carryforward year as though you were married filing a separate return.
2. Figure your spouse's tax in that year as though he or she was married filing a separate return.
3. Add the amounts in steps (1) and (2).
4. Divide the amount in step (1) by the amount in step (3). The result should be rounded to at least three decimal places.
5. Multiply the decimal in step (4) by the total tax shown on your joint return for the carryback or carryforward year. The result is your separate tax liability and a carryback or carryforward credit is applied against this amount only.

Although your carryback or carryforward of the credit is limited to your separate tax liability, the amount of your refund resulting from the carryback or carryforward is further limited to your share of the joint overpayment. This is found by subtracting your separate tax liability (as determined above) from your contribution toward the payment.

Unless you have an agreement or clear evidence of each spouse's contribution toward the payment of the joint liability, your contribution includes the tax withheld on your wages and your share of the joint estimated tax or tax paid with the return. Your share of these payments is found by using the same formula used in determining your separate tax liability. Substitute the joint estimated tax, or tax paid with the return, for the tax in step (5). If the original return for the carryback year resulted in an overpayment, reduce your contribution by your share of the refund.

Attach a copy of the computation to your amended return or application for tentative refund.

Credit Ordering Rule

General business credits reported on Form 3800 are treated as used on a first-in, first-out basis by offsetting the earliest-earned credits first. Therefore, the order in which the credits are used in any tax year is:

- Carryforwards to that year, the earliest ones first;
- The general business credit earned in that year; and
- The carryback to that year.

If your general business credits exceed your tax liability limit, the credits are used in the following order and based on the order shown under [Order in which credits are used](#) next.

- Credits reported on line 2 of all Parts III with boxes A, B, C, and D checked.
- Credits reported on Part II, line 25.
- Non-ESBC credits reported on line 5 of all Parts III with boxes A, B, C, and D checked.
- ESBC credits reported on line 6 of all Parts III with box G checked.

Order in which credits are used. When relevant, the components of the general business credit reported on Form 3800 arising in a single tax year are used in the following order.

TIP *Although these credits are aggregated on Form 3800, keep a separate record of each credit, including whether the credit was an eligible small business credit, to ensure proper accounting of the credits.*

Eligible Small Business

An eligible small business is:

- A corporation whose stock is not publicly traded,
- A partnership, or
- A sole proprietorship.

The average annual gross receipts of the corporation, partnership, or sole proprietorship for the 3-tax-year period preceding the tax year of the credit cannot exceed \$50 million. Gross receipts for any tax year must be reduced by returns and allowances made during the year. Any reference to your business also includes a reference to any predecessor of your business.

If your business was not in existence for the entire 3-year period, base your average annual gross receipts on the period your business existed. Also, if your business had a tax year of less than 12 months, your gross receipts must be annualized by multiplying the gross receipts for the short period by 12 and dividing the result by the number of months in the short period.

Member of controlled group, business under common control, or affiliated group. For purposes of the gross receipts test, all members of a controlled group of corporations (as defined in section 52(a)) and all members of a group of businesses under common control (as defined in section 52(b)) are treated as a single person, and all

employees of the members of an affiliated service group (as defined in sections 414(m) and (o)) shall be treated as employed by a single person.

Treatment of partners and S corporation shareholders. A partner or S corporation shareholder cannot be treated as an eligible small business unless both the partnership or S corporation and partner or shareholder meet the gross receipts test as discussed under *Eligible Small Business*, earlier, for the tax year that the credit is treated as a current year general business credit.

Part III. General Business Credits or Eligible Small Business Credits

Complete a separate Part III for each box checked. In addition, for each box A or B checked, if you have a credit from more than one source and one of the sources is a pass-through entity, including a cooperative (see [Column \(b\)](#), later), a separate Part III is needed for each pass-through entity for which you received the same credit. As a result, one checkbox could have multiple Parts III if you receive a single credit from multiple pass-through entities.

After you have completed all necessary Parts III, complete Part I, if necessary, then Part II.

Box A Through D and G

Check the box that identifies the credit being reported.

Box I

Check box I if you are reporting credits on more than one Part III with box A or B checked. You must use a Part III with box I checked to consolidate the amounts from all Parts III with box A or B checked. Consolidate the Parts III with box A or B checked by combining the amounts for each credit line on each Part III with box A or B checked; then, enter the total for each credit on the applicable line of the Part III with box I checked.

A consolidated Part III is only needed when there is more than one Part III with box A or B checked. More than one box A or B means more than one individual letter box (for example, if there is more than one Parts III with box B checked, a consolidated Part III is needed to reflect the total of all the boxes B checked) or more than one combination of letters (for example, if there is a box A checked and a box B checked, a consolidated Part III is needed to reflect the total of boxes A and B).

Column (b)

If you are reporting a credit from a pass-through entity, you must enter that pass-through entity's employer identification number (EIN) under column (b) for that credit.

If you are reporting a credit reported to you on Form 1099-PATR, Taxable Distributions Received From Cooperatives, you must enter that cooperative's EIN under column (b) for that credit.

A separate Part III will be needed to report the EIN of the pass-through entity, including cooperatives, and the amount of credit from that entity, if a credit is received from more than one source and one of the sources is a pass-through entity, including a cooperative. Column (b) is only completed for any Part III with box A or B checked.

Don't enter an EIN under column (b) when completing Part III with box C, D, or G checked.

Limitation on Certain Credits

The aggregate amount from each credit form is usually reported on the appropriate line of Form 3800, Part III, for the applicable boxes A and B, to reflect self-generated credit sources and all pass-through entity sources. However, certain credits have limitations imposed. They include:

- Form 3468, Part III, line 12p—\$4,000 limitation for qualified small wind energy property (reported on Part III, line 4a);
- Form 8826, line 8—\$5,000 limitation for the overall credit (reported on Part III, line 1e);
- Form 8881, line 5—\$500 limitation for the overall credit (reported on Part III, line 1j); and
- Form 8882, line 7—\$150,000 limitation for the overall credit (reported on Part III, line 1k).

In situations where there is a limitation on the credit amount, the limited amount allowed is allocated pro rata and anything above the limitation is lost.

Lines 1a and 4a

If you are a cooperative described in section 1381(a), you must allocate to your patrons the investment credit in excess of your tax liability limit. Allocate to your patrons the portion, if any, of the investment credit on Part I, line 6, or Part II, line 36, in excess of Part II, line 16 or line 29, respectively. While any excess is allocated to patrons, any credit recapture applies as if you as the cooperative had claimed the entire credit.

Note. Any carryforward of the qualifying therapeutic discovery project credit may be claimed on Part III, line 1a.

Line 1c and 4i

A qualified small business must complete Form 3800 before completing Section D of Form 6765, if the payroll tax credit is being claimed. See the instructions for Form 6765 for more details.

Eligible small businesses, enter your research credit on line 4i. See the definition of *Eligible Small Business*, earlier. All others, enter your research credit on line 1c.

Partners and S corporation shareholders, see *Treatment of partners and S corporation shareholders* under *Eligible Small Business*, earlier.

Research credit limitation. If you are an individual, the amount of the research credit that may be included on Part III, line 1c or line 4i, is limited to the amount of tax attributable to your taxable income from the sole proprietorship or your interest in the pass-through entity (partnership, S corporation, estate, or trust) generating the credit. Figure the research credit limitation separately for each sole proprietorship or pass-through entity by using the following formula.

Taxable income attributable to the sole proprietorship or your interest in the pass-through entity

Line 11 x

Your taxable income for the year

The sum of the fractions used for determining the limits can't exceed one. The research credit used to determine the limitation is the sum of the current year credit (determined without regard to the limitation), any carryforwards of the credit not used in prior years, and any carryback of the credit from 2017. For information on how to figure your taxable income for the year, your taxable income attributable to the sole proprietorship, or your interest in the pass-through entity, see Regulations sections 1.41-7(c) and 1.53-3.

If in the current tax year you had no taxable income attributable to a particular business interest, you can't claim any research credit this year related to that business.

If any of your research credit isn't allowed to be used because of this limitation, see [Carryback and Carryforward of Unused Credit](#), earlier.

Line 1e

When reporting the disabled access credit from Form 8826 on Part III, line 1e, don't enter more than \$5,000 in column (c) of Parts III with box A or B checked, combined.
